Joe Adams
Budget & Planning
Room 426

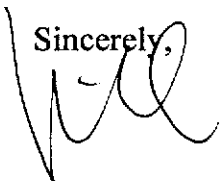

Dear Mr. Adams:

I want to take this opportunity to express my sincere gratitude for your important role in the development of the ACCESS input screens for reporting performance measurements. This new feature will help TWC staff produce more timely, accurate monthly reports to the Texas Legislature and our other government partners.

I am pleased with the many computer-based initiatives we have recently completed that enable both TWC staff, LWDB staff, and our mutual clients to report and access information more easily. None of these projects could have been successfully completed without the creativity, knowledge, and hard work of individuals like you.

Thank you again for your contribution in TWC's ongoing effort to develop new ways to make state government more efficient.

Sincerely,

Mike Sheridan
Executive Director
